

The Division Street Bus Rapid Transit (BRT) project will convert the existing Route 25 to BRT service, with new stations and roadway modifications that will provide faster, safer, and more reliable bus service. This summary highlights the features and opportunities relevant to future BRT stations.

This station will...

Support existing employment activity near the station, as well as potential future residential, employment, and ridership growth

Approximately 42% of households within a 0.25 mile walkshed of the project area are considered very low income

Update and improve the existing Route 25 bus stop at this intersection by adding amenities while considering access needs

Improve frequency of access to nearby destinations such as Vintage at Spokane Apartments, Northwest Seed & Pet Garden Center, Holy Cross Cemetery, and retail locations

Station Features

Existing sidewalk integrated into the station design
 11' x 60' bus platform
 In-lane bus pad

Draft station drawing - design in progress

Street view of the station location (Google Street View)

Division BRT alignment, Francis Ave to Cascade Wy/Lincoln Rd

Draft corridor rendering, Division at Price/Magnesium to Division/Ruby couplet - design in progress
